

It has come to the Foundation's attention that an individual on the Internet has claimed to be a donor to the Foundation while making unfounded claims about our organization. Foundation records show that this individual signed up to volunteer to help with one charity event more than two and one-half years ago. He received two complementary tickets and attended that event that community leaders, elected officials and members of the board of trustees of The Spring of Tampa Bay attended. The Foundation has no record of him volunteering or making a financial contribution to our Foundation. It has been suggested by others on the Internet that approximately \$9,000 was used to "pay for a trip to Haiti for Mr. Pinson" as if there was a vacation taking place.

**Haiti Medical Team and Emergency Relief:** The first private donation of \$5,000 was made by Pinson Communications, a private for profit company owned by Mr. Pinson, to the Foundation to help sponsor an 11-person emergency medical team that provided medical and surgical services to Haiti earthquake victims in January 2010. The Foundation directly paid for the medical team's transportation, base camp operations, security, food, medical and other supplies, and hired help in Haiti. The Foundation also made cash donations and provided support to several orphanages, missionaries, and tent city operations on the island. In March 2010, The Foundation also supported a Tampa based missionary group to help ship more than 20,000 pounds of food and medical supplies to a school, orphanage, clinic and homeless project in Haiti. In May 2010, The Pinson Foundation Team invested donations to return to Haiti as they hired Haitian workers and provided transportation and volunteers to re-distribute medicine, food and supplies to missionaries and clinics. An estimated \$300,000 in medical supplies had been provided by other international relief organizations for the Foundation to receive for redistribution to support their operations in Haiti. We would like to thank all of our donors and volunteers who helped us make this possible. We could not have done this without out you.

*"Michael Pinson came to me to help put together an emergency medical team for Haiti just after the Earthquake for the Pinson Foundation. Michael personally donated the first \$5,000 towards the Foundation's mission and four days later we were in Haiti with an eleven member team. The team worked 12 hour days for a week. I am honored to have worked with Michael and the Pinson Foundation",* said Dr. Frederick Guerrier.

Dr. Frederick Guerrier, a Haitian American with a medical practice in St. Petersburg, Fla. was the Medical Team Leader for the Pinson Foundation's relief efforts in Haiti. He was also recognized and awarded as the Pinellas County Medical Associations Physician of the Year in 2010.

A copy of the donation check by Pinson Communications is provided below. While we regret having to even address this at all, we are sure that these facts will resolve any unfounded claims by individuals on the Internet.
